To: Board of Directors

From: C. Sedoryk, General Manager/CEO

Subject: Monthly Report – September 2022

Attached is a summary of monthly performance statistics for the Transportation, Maintenance, and Administration departments for the month of September 2022. (Attachments 1-5). An updated August 2022 Operations Department Report is included as well as Dashboard Performance Statistics for August 2022.

On September 23, I traveled to the MOVE Mobility Technology Conference and Trade Show in Austin, TX where I was invited to provide a presentation on the results of our contactless open-loop fare payment system.

July – September operating results reveal that during the quarter, passenger boardings continue to grow and are currently hovering near 80% of boardings in the weeks prior to March 2020. We anticipate that increased service levels and lower fares resulting from the Better Bus Network implementation will result in further increased passenger boardings starting in December.

Attachment #1 – Dashboard Performance Statistics – August and September 2022

Attachment #2 – Operations Department Report – August and September 2022

Attachment #3 –Maintenance Department Report – September 2022

Attachment #4 – Administration Department Report – September 2022

Attachment #5 – FY 23/24 Action Plan Status Update – September 2022

Complete detail of Monthly Performance Statistics can be viewed within the GM Report at http://www.mst.org/about-mst/board-of-directors/board-meetings/

MST RIDES Financial Performance Comparative Statistics July - September Fiscal Year 2023

Date: October 27, 2022

To: Carl Sedoryk, General Manager / CEO

From: Norman K. Tuitavuki, Chief Operating Officer

Subject: Transportation Department Monthly Report – August 2022

FIXED ROUTE BUS OPERATIONS:

System-Wide Service: (Fixed Route & On-Call Services):

MST's preliminary boarding statistics indicate ridership was 195,184 in August 2022, which represents an 8% increase compared to August 2021's ridership of 180,779. This fiscal year to date, passenger boardings continue to increase overall; however, this positive ridership trend could change as we continue with our COVID-19 recovery efforts.

Month after month, MST's productivity continues to improve. MST's productivity increased from 9.7 passengers per hour in August 2021 to 11.6 passengers per hour in August of this year. This represents a 19% improvement compared to the same month, the previous year.

Supplemental / Special Services:

MST Trolley Monterey Ridership: 29,624

System-Wide Statistics:

Ridership: 195,184

Vehicle Revenue Hours: 16,763Vehicle Revenue Miles: 240.015

System Productivity: 11.6 Passengers Per Vehicle Revenue Hour

One-Way Trips Provided: 19,968

On-Time Performance (OTP): Of 86,346 total time-point crossings sampled for August, the Transit Master™ system recorded 16,917 delayed arrivals to MST's published time-points system-wide. As a result, **80%** of all scheduled arrivals arrived on time. (*See MST Fixed-Route Bus* ~~ *On Time Compliance Chart FY 2022 - 2023.*)

Note: Service arriving later than **5** minutes beyond the published time point is considered late. The on-time compliance chart, (attached), reflects system-wide "on-time performance" as a percentage of the total number of reported time-point crossings.

Service Canceled: As listed below, there were a total of four (4) service cancellations in August for both directly operated and contracted services – compared to nine (9) cancellations in the previous month, July 2022.

Total Revenue Trips Completed: 19,123				
Reason for Service Cancellation	MST	MV	Totals	
Accident (MST)	1	0	1	
Mechanical Failure	2	0	1	
Other	1	0	0	
Passenger Incident	0	0	2	
Traffic	0	0	0	
Staff Shortage	0	0	0	
Totals	4	0	4	

Documented Occurrences: MST Coach Operators are required to complete an occurrence report for any unusual incident that occurs during their workday. The information provided within these reports is used to identify trends which often drive changes in policy or standard operating procedures. The following is a comparative summary of reported incidents for August 2021 and 2022:

Occurrence Type	August-21	August-22
Collision: MST Involved	1	3
Employee Injury	1	0
Medical Emergency	0	0
Object Hits Coach	0	0
Passenger Conflict	2	1
Conflict: Passenger VS Passenger	0	2
Passenger Fall	2	7
Passenger Injury	1	1
Other	2	0
Near Miss	0	0
Fuel/fluid Spill	1	2
Unreported Damage	1	0
Totals	11	16

CONTRACTED TRANSPORTATION SERVICES:

MST RIDES ADA / MST Paratransit Program:

Preliminary boarding statistics for the MST RIDES program reflect that for August 2022 there were 8,996 passenger boardings. This is a 3% increase in passenger boardings compared to August 2021, (8,734). For the fiscal year – passenger boardings have increased by 3% compared to FY 2021.

- Productivity for August 2022 was 1.99 passengers per hour, increasing from 1.98 passengers per hour compared to the previous month (June 2022).
- For August 2022, 76% of all scheduled trips for the MST RIDES program arrived on time, below the expected on-time performance standard.

COMMUNICATIONS CENTER:

In August, MST's Communications Center summoned public safety agencies on eleven (11) separate occasions to MST's transit vehicles and facilities:

Agency Type	Incident Type	Number of Responses
Police	Vehicle Accident / Passenger Disturbance / Other	6
Medical	Employee Request / Passenger Request / Other	5
Fire	Employee Request / Passenger Request / Other	0
Totals		11

DEPARTMENT ACTIVITIES:

In August, several Operations Department Managers provided in-person tours of Monterey, Salinas, and contractor-operated facilities for MST's consultant, Stantec. In addition to the tours, staff participated in several meetings with Stantec to kick off planning for the Salinas Operations and Maintenance Facility project. This effort and future meetings between Stantec and MST staff will help shape and guide this project.

I participated in the California Transit Association (CTA) Zero Emission Vehicle (ZEV) Task Force Meeting. This task force consists of selected CTA members throughout the state. This task force is uniquely comprised of CTA members from all transportation modes (bus, rail, and ferry). The task force intends to develop advocacy priorities for CTA and its members. The task force's work in August resulted in a letter from CTA (supported by its members) regarding the California Air Resources Board's (CARB) comprehensive review of the status of zero-emission bus technology in 2022. The letter provides insight from CTA members. The ZEV Task Force will continue reviewing and responding to ZEV issues to support all its members.

CONTRACTED TRANSPORTATION SERVICES:

MST RIDES ADA / MST Paratransit Program:

Preliminary boarding statistics for the MST RIDES program reflect that for September 2022 there were 9,194 passenger boardings. This is a 3% increase in passenger boardings compared to September 2021, (9,123). For the Fiscal year – passenger boardings have increased by 1% compared to FY 2021.

- Productivity for September 2022 was 1.89 passengers per hour, decreasing from 1.99 passengers per hour compared to the previous month (August 2022).
- For September 2022, 79% of all scheduled trips for the MST RIDES program arrived on time, below the expected on-time performance standard.

COMMUNICATIONS CENTER:

In September, MST's Communications Center summoned public safety agencies on ten (10) separate occasions to MST's transit vehicles and facilities:

Agency Type	Incident Type	Number of Responses
Police	Vehicle Accident / Passenger Disturbance / Other	6
Medical	Employee Request / Passenger Request / Other	4
Fire	Employee Request / Passenger Request / Other	0
Totals		10

DEPARTMENT ACTIVITIES:

In September, I completed an online training course, "Leadership – eProject Management" through the California Transit Training Consortium (CTTC) of which MST is a member. The training provided a review of project management-specific processes and procedures. The training helped me better understand how to manage projects of all sizes and will enable me to provide improved oversight for all projects within the Operations department.

The Facilities Manager and I attended the Zero Emission Bus Conference (ZEBcon) in Anaheim. The conference was well attended by industry colleagues, businesses, and other entities interested in California's transition to zero-emission technology. In addition to the sessions attended, the Facilities Manager and I participated in a tour of Foothill Transit's hydrogen fueling project under construction at that time. Additional information and details on the conference can be found in my report – contained in the November 2022 Board packet.

Along with the rest of MST's Executive Leadership Team (ELT), I attended MST's 50th Anniversary luncheons at our Monterey, Salinas, and King City divisions. I interacted

with MST's employees and congratulated them for their commitment and work to accomplish MST's mission. The lunches were well received by all attendees and the experience will help MST build rapport and improve employee morale.

Operations Summary Report

Fixed Route Services

September 2022

SERVICE DELIVERED		SERVICE QUALITY	
Ridership	191,297	On-Time Time Points	66,259
Passengers / Vehicle Revenue Hour	12.0	Delayed Time Points	16,762
Revenue Miles	237,291	On-Time Passenger Boardings	155,675
One-Way Trips Operated	18,498	Percent On-Time Boardings	81.5%

Systemwide Service:

Boardings reported for the month of September show ridership to be 19.4% higher than in September of 2022, when 160,193 boardings were reported. Over that same timeframe, the amount of revenue hours operated decreased by 7.5%, resulting in a 29.1% increase in productivity, from 9.3 Passengers Per Hour last September to 12.0 Passengers Per Hour this September. The increase in ridership can be attributed to fewer emergency service reductions and fewer county wide restrictions due to COVID-19.

For the fiscal year ridership has increased 11.6 % and revenue hours operated have decreased 10.2%, resulting in a 24.4% increase in productivity (from 9.4 PPH to 11.6 PPH).

Seasonal Service:

The MST Trolley Monterey reported 5,045 boardings for the month of September and operated until Labor Day, September 5, 2022.

Supplemental / Special Event Service:

Service operated September 2-5 for the Monterey County Fair, reporting a total of 5,788 boardings. Service operated September 23-25 for the Monterey Jazz Festival, reporting a total of 8,428 boardings.

MOBILITY DEPARTMENT UPDATE - SEPTEMBER 2022

Outreach and Training:

- A Mobility Specialist was a guest at the following event(s) or community center(s) with an informational table or presentation on MST services and mobility programs:
 - Seniors & Veterans Connect Resource Fair, Monterey County
 - Hacienda Carmel, Carmel-By-The-Sea
 - Special Kids Connect, Monterey County
 - Merrill Gardens, Monterey
 - Veterans Transition Center (VTC), Marina
 - MPUSD Special Education Program, Monterey
 - AARP Smart Driver, Monterey
 - The Carmel Foundation, Carmel-By-The-Sea
 - Sally Griffin Active Living Center, Pacific Grove
 - The Park Lane, Monterey
 - Age Well Drive Safe, Salinas
- A Mobility Specialist provided MST bus system orientation and training for the following customers:
 - Travel trained an elderly person to safely ride bus line 91 and line 92
 - New Horizon Community Services

Taxi Voucher Program:

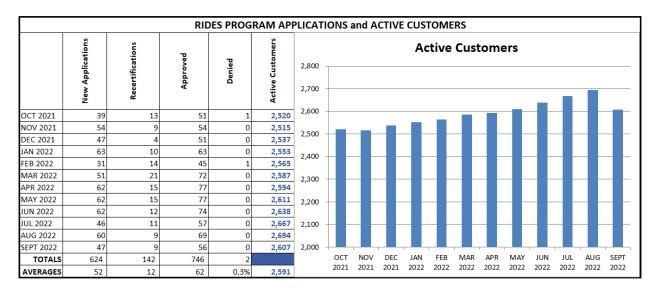

- Mobility Specialist processed 3,690 voucher requests for the 1st quarter in September for both the disabled and Salinas senior voucher program.
- The Veterans distribution locations sites issued 195 taxi vouchers in September.
- Mobility Specialist processed 4,044 redeemed vouchers for taxi provider reimbursement.

Transportation Reimbursement Incentive Program:

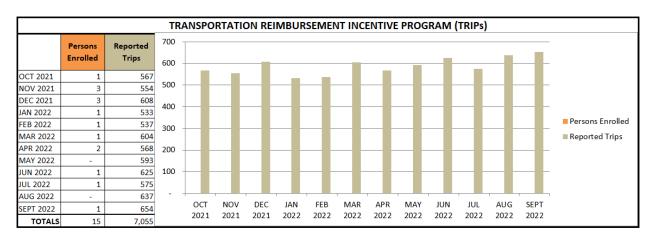

• There are currently 72 seniors, 23 persons with disabilities, and 13 Veterans enrolled in the program.

To: Carl Sedoryk, General Manager/CEO

From: Norman K. Tuitavuki, Chief Operating Officer

Subject: Maintenance Department Monthly Report – September 2022

This report summarizes the performance and major activities of the Maintenance Department as well as fuel and operating expenses during the month.

Fuel Budget FY2023	Average Fuel Price September 2022	Average Fuel Price FY2023		
Diesel: \$5.40	\$4.65	\$4.67		
Gasoline: \$5.40	\$4.83	\$5.09		

Period	Revenue Fleet Operating Cost Per Mile	Revenue Fleet Miles Between Major Mechanical Road Calls: ¹
September 2022	\$1.70	195,726
YTD FY 2023	\$1.62	89,187
FY 2022	\$1.32	24,366
FY 2021	\$1.23	54,756

¹ Minimum: 7,000 Miles; Goal: 15,000 Miles

Department Activities/Comments:

September 2022's cost per gallon for gasoline *decreased 1.02%, a decrease of 6 cents*, and the cost per gallon for diesel *increased 0.65%, an increase of 3 cents* compared to the previous month, August 2022. For FY23 MST increased its budgeted cost per gallon for both diesel and gasoline fuels based on the fuel prices experienced in the previous fiscal year. As a result, the cost per gallon for both diesel and gasoline fuels remains under budget. Fuel prices continue to fluctuate unpredictably. Staff continues to monitor all movement of vehicles to minimize unnecessary fuel usage.

In September, MST traveled 195,726 miles between major mechanical failures with *zero road calls* – exceeding the 15,000-mile goal. This rare accomplishment speaks to the talents of our frontline employees and management staff. Additionally, MST's Maintenance department completed 100% of their scheduled preventive maintenance inspections on time. MST has continued to meet or exceed the stated goal within this area of performance.

It should be noted that MST has dramatically reduced the overall number of revenue miles traveled to conform with current ridership demands and other factors resulting from the COVID-19 pandemic.

In September, the Facilities Department Manager and I attended the Zero Emission Bus Conference (ZEBcon) in Anaheim, CA. We both attended sessions regarding ZEB maintenance, operations, and infrastructure to increase our knowledge and to help us fully transition to ZEB in the coming years. Additionally, we both participated in a tour of Foothill Transit's hydrogen fuel station project that is currently under construction. Our full trip reports are included in the full board packet and available for reference.

Contactless Tap to Pay:

During the month of September, MST received a total of 9,934 taps. There were 3,932 successful journeys where the passenger tapped on when they boarded and again when they got off. There were 2,070 penalty taps where the customer only tapped on and did not tap off, resulting in a \$3.50 penalty fare being assessed.

Since launching the demonstration project on May 11, 2021, there have been a total of 118,847 taps, of which 49,477 trips were successful. Total revenue collected to the end of September from passengers using contactless payment was \$15,329.

Contactless Tap to Pay Report September 2022

Finance Update

General Accounting/Accounts Payable

During the month of September, staff processed timely and accurate payments to vendors, recorded appropriate revenues, and prepared monthly financial reporting and analysis. Staff continues to work effectively to meet financial reporting deadlines. In September, staff continued working on the annual audit preparation for FY2022. Eide Bailly LLP will perform the remainder of the audit remotely during the month of October.

Payroll

Routine changes and adjustments to payroll records were maintained along with filing of all federal, state, and retirement reports and payments on a timely basis. Payroll continued to provide hours and earnings reports upon request to MST departments

Grants

During the month of September, staff drafted, followed up on, responded to, and submitted pending applications, requests for reimbursement, and program reporting under the following programs:

- Federal 5307 Traditional
- Federal 5339 Formula
- Federal COVID relief funding (CARES, CRRSAA, ARPA)
- Low Carbon Transit Operations Program
- Transit and Intercity Rail Capital Program (TIRCP)
- MST Capital Improvement Program
- CA SB1 State of Good Repair
- CA SB1 Local Partnership Program
- Federal 5309 Capital Investments Grants
- Caltrans Sustainable Transportation Planning Grants

In addition to attending webinars for future grant opportunities, staff participated in several meetings regarding current and future projects, bus procurements, and other capital projects. Update meetings with internal staff were ongoing to address status changes to various active or pending grants and requests for reimbursements.

Grants Summary						
Active Grant Funding	\$91,419,687					
Grant Funds Pending						
Award	\$1,362,331					

Procurements and Purchasing

Procurement efforts for the month included reviewing invoices, tracking supply requisition forms, and placing supply orders for each MST location. A draft procurement manual is in the works for internal use at MST. MST has put out a request for quotations for oils and lubricants in an effort to ensure that the District is receiving the best price. An invitation for bids for landscape maintenance services has been put out as MST's contract with Ernesto Cardenas Landscaping ends on November 30. The deadline to submit bids is Friday, October 28 and a public opening of bids will be held. A request for quotations for actuarial services has been issued as Aon has decided not to renew their contract with MST. The deadline to submit quotations for armored car services was extended since no quotes were received prior to the initial deadline. After Board approval, MST executed a contract with Shaw Yoder Antwih Schmelzer and Lange for state legislative advocacy services. Contract extensions for both Goodyear and Pacific Claims Management have been drafted and are being reviewed as MST's current terms with both companies are set to expire at the end of the year.

Information Technology Update

Governance:

• I.T. Steering Committee: The I.T. Steering Committee met on September 28th. During the meeting, the Committee was introduced MST's new Project Management Coordinator. The Committee also created a draft list for two new project teams covering the selection and implementation of a comprehensive Document Management System as well as a new Digital Signage System, with the goal of launching those project teams in the first quarter of 2023.

Operations Technology:

- HASTUS Upgrade: Discussions are continuing with regards to modernizing the HASTUS scheduling system, with a goal to select and implement an upgrade team once the Better Bus Network has been fully implemented.
- **Contactless Fare System:** the MST I.T. Team is continuing to monitor the performance of the contactless fare devices and is using the data that has been gathered during this early deployment to select a long-term device provider.

Cybersecurity:

- Ukraine/Russia Conflict: (carried over from the August report as the concern remains elevated and ongoing) CISA (Federal Cybersecurity & Infrastructure Agency) continues to advise that they are seeing an elevated level of reconnaissance activity against U.S. Infrastructure, including transportation. However as of this Board Report, there are no indications of any increased or coordinated attacks. I.T. is continuing to monitor these and other reports as a part of overall cybersecurity posture.
- **September Advisories:** Overall, the MS-ISAC (Multi-State Information Sharing and Analysis Center) issued approximately 30 cybersecurity advisories in June of 2022 that were considered potentially critical to Public Agencies. Ransomware attacks continue to be the most prevalent issue, however there are indications that probing of firewalls and web sites for vulnerabilities is on the increase.

Marketing Update

Notes: On Twitter, "following" someone means that you will see their tweets (Twitter updates) in your personal timeline. Twitter lets you see who you follow and also who is following you. Followers are people who receive other people's Twitter updates.

A Facebook "fan" is a user who likes a particular Facebook page. Users who "like" a page are able to receive updates from that page's administrator through status updates, posted content, and event invitations. A list of pages a fan has liked will appear on his or her profile page.

"Engagement" is the sum of likes and comments received by all posts.

"Traffic" is the total number of clicks on all the links posted.

Planning Update

Better Bus Network

Planning staff was largely focused on the service change to implement the Better Bus Network. The East Garrison Homeowners Association (HOA) had been unresponsive to several MST inquiries for process on reinstating bus service to the community, so County Supervisor Wendy Root Askew's office was contacted to assist. A point of contact was established for East Garrison HOA, and MST planning staff was able to schedule a presentation at a future HOA meeting. Staff presented to Seaside Traffic Advisory Committee for the request to relocate a bus stop on the Jazz A route. Staff also presented to the Salinas Traffic and Transportation Commission for new stops in the Creekbridge neighborhood and on Van Buren Street.

Transit-Oriented Development Planning Study

Work continued on the Transit-Oriented Development (TOD) planning study in support of the SURF! Busway and Bus Rapid Transit project. Meetings were held with CSUMB and the cities of Marina, Monterey, Seaside, and Salinas to review current land development applications and roadway projects that might be opportunities for TOD.

Regional Planning

Throughout the month, staff continued participating in meetings with various local agencies, including the Transportation Agency for Monterey County and Association of Monterey Bay Area Governments.

Action Plan for FY 2022/23 and FY 2023/24

Status Update

Connecting Communities

1. Initiate East Alisal BRT and Salinas Transit Center (STC) Relocation Study as funding allows. December 2022

Status: Taylor Farms and City of Salinas have made written commitments to fund the study. Staff is waiting on Taylor Farms to provide contract language.

2. Develop plan to address outdated information technology legacy systems and continue implementation of 2019 – 2021 Information Technology Strategic Action Plan. December 2022

Status: An internal Information Technology steering committee has been formed to inform the plan which is on track to be completed on time.

3. Complete implementation of Board approved service changes (new Network Plan) to fixed route and Measure Q funded services along with supporting staffing plan and supporting fare policy. December 2022

Status: Better Bus Network on track to implemented on December 10. Except for King City, South County circulator service delayed until cities agree to bus stop plans.

4. Implement MST sponsored Vanpool Program to supplement existing fixed-route and mobility services. December 2022

Status: Completed and implemented September 2022.

 Continue final design and submit application for FTA Capital Investment Grant (CIG) project evaluation, rating, and approval for SURF! Busway and Bus Rapid Transit Project (BRT). June 2024

Status: CIG application submitted with results to be announced February 2023. Final design and public participation continue.

- **6.** Continue transit activities within board adopted operational and financial performance standards. **Status: Ongoing**
- 7. Maintain ongoing community partnerships and seek new opportunities as appropriate. **Status: Ongoing**
- 8. Develop and implement service levels, facilities, polices, and procedures appropriate to funding availability and community requirements. **Status:**Ongoing
- 9. Provide administrative support in service to Monterey County Regional Taxi Authority and Monterey-Salinas Transit Corporation. **Status: Ongoing**
- 10. Continue marketing and community outreach programs to promote and educate the communities we serve regarding the benefits of MST mobility services. Status: Ongoing

Creating Opportunities

1. Initiate comprehensive campaign to promote increased inclusivity, diversity, and equity of employment of underrepresented groups within MST's workforce.

December 2022

Status: Staff continues to work with consultants and internal team. Board will receive an update at its meeting of December 12th.

 Complete demonstration of contactless fare payment and mobile ticketing solution and determine feasibility of continuing technology on MST fixed route, MST RIDES and MST subsidized taxi services. July 2022

Status: Staff has completed the demonstration and is in the process of seeking competitive quotations for hardware and associated services via the state Master Service Agreement.

3. Begin fixed facility review for location new/rehabilitated Salinas Operations and Maintenance Facility and review of MST excess properties. June 2023

Status: Consultant has been hired and work is ongoing.

4. Continue partner-funded programs for students and educational organizations.

October 2022

Status: Contracts with CSUMB, Hartnell, and MPC have been executed. Staff is working on a system to allow 50% discount to students during semester break periods.

5. Initiate research to determine levels of community support for local funding initiatives to support long term investments including fixed route operations, BRT and ZEB infrastructure investments. June 2023

Status: Initial discussions with consultants have occurred. More activity to take place after January 2023.

6. Complete Collective Bargaining Agreement with the Amalgamated Transit Union.

December 2022

Status: Completed with Board ratification at its meeting of October 17th.

Complete Collective Bargaining Agreement with MST Employee Association MOU. February 2023

Status: In process with your Board opening negotiations at its meeting of October 17th.

8. Initiate comprehensive records and document management system to support Records Retention Policy and continuity of operations. December 2023

Status: Project not yet started.

- 9. Continue programs to support employment diversity, inclusiveness and equity for MST employees and customers **Status: Ongoing**
- 10. Actively participate in state and national trade associations to support issues of local concern. **Status: Ongoing**
- 11. Continue employee training and development opportunities through partnerships with local colleges, universities, trade associations, and vendors. **Status: Ongoing**

- 12. Ensure compliance with federal, state, and local regulations, and conduct regular review of policies and practices. **Status: Ongoing**
- 13. Adopt and execute federal and state legislative programs.

Status: Your Board will adopt state and federal legislative programs at your December 12 meeting.

- **14.**Continue board development/educational activities and policy reviews. **Status: Ongoing**
- 15. Continue to seek funding from grant sources and extra governmental partnerships to maintain and expand mobility services. **Status: Ongoing**
- 16. Continue to adopt policies and adapt practices to existing Emergency Operations plan to address impacts of COVID-19 to the operations and workforce and ensure safety and cyber security of MST data and telecommunications systems, networks, and programs. **Status: Ongoing**

Being Kind to Our Planet

- 1. Continue implementation of Zero Emission Bus (ZEB) Roll Out Plan: Focus on ZEB vehicles, equipment, infrastructure, and develop long term funding plan to include public-private partnerships. **Status: Ongoing**
- 2. Promote and participate in planning efforts for autonomous vehicle infrastructure where such technology would best support MST operations. **Status: Ongoing**
- 3. Continue efforts to ensure passenger and employee safety and security. **Status: Ongoing**
- 4. Continue efforts to finance and maintain a state of good repair for MST fleet, facilities and supporting infrastructure. **Status: Ongoing**

Monterey-Salinas transit seeks community input on new 'SURF!' bus transit project

Updated: 12:54 PM PDT Sep 1, 2022

Ariana Jaso

Reporter

MARINA, Calif. — On Wednesday, Monterey-Salinas Transit held an open house to educate and receive input from the community on the new "SURF! Busway and Bus Rapid Transit" project.

One long-time local, Richard Vasquez, weighed in on the project.

"I'm hoping it will draw some attention and bring us together as a community," Vasquez said. "Transportation is very important and being that I'm a senior, being able to get around the county, particularly this area makes it more meaningful."

The transit will run parallel to Highway 1 on the underutilized rail corridor between Marina and Sand City.

"It'll go from Palm and Del Monte in Marina and it'll go along the rail bed. The abandoned former Union Pacific Line Railroad. It'll be on the east side of the rail hugging Highway 1," said Lisa Rheinheimer, MST's assistant general manager.

The goal is to connect communities, relieve highway congestion and most of all—get people where they're going faster and more efficiently.

"Many people don't realize, that in the city of Monterey, 87% of the people who work there actually come in from elsewhere and you can see that. On the roads coming in in the morning, Highway 1, Highway 68, it's just loaded for miles, backed up," said Kevin Dayton with Monterey Peninsula Chamber of Commerce.

The project is a product of Measure X, which is a local sales tax measure that Monterey County voters approved back in 2016.

"It goes towards local streets and roads, 60% of it distributed to the county and the cities for street maintenance and improvements to bike and pedestrian facilities," said Todd Muck, executive director of the Transportation Agency for Monterey County.

The project is projected to return \$250 million in economic benefits and create over 600 jobs and in an eco-friendly way.

"We're going to be using zero-emission vehicles that are super quiet and they have no emissions," Rheinheimer said.

If the funding plans go as expected, they plan for construction to start in 2024 and for passengers to start traveling in 2027.

Open for All: The Modular Route to **Contactless Open Loop Fare Payments**

Modular components that can be integrated within systems are providing transit providers of all sizes a more flexible option to leverage contactless payments.

Adam McGavock

Sept. 20, 2022

Monterey Salinas-Transit launched tap-to-pay on its system in May 2021.

Transit agencies around the world are starting to see an alternative to single vendor contracts when procuring fare collection systems. Modular components, supplied by specialist vendors and integrated within an open architecture, are emerging as a faster, less expensive and more flexible option.

Design and build options

Until recently, the market for providing automated fare payments was dominated by big fare collection system vendors. Once contracted, they entered long-term relationships with customers, managing the entire project throughout the design, build, operate and maintain phases. These projects are typically built to detailed specifications, can take years to deploy and can include associated costs that prove prohibitive to smaller agencies.

While it can be reassuring to have only one vendor to engage with, agencies are locked into contracts for many years, and modernization can become a challenge.

The transit industry has looked to other sectors for an example of a more agile solution. Modular systems, the norm in retail payments for decades, Sept. 28, 2022

Fare Collection

Elavon launches Mass Transit Payments in the United States

Sept. 28, 2022

provide a faster, more cost-effective approach, which can be replicated for fare collection.

An alternative model

Transit operators and agencies of all sizes are choosing to buy solutions for contactless fare payments in a number of lots, which plug-and-play together through open APIs. This means they engage several vendors who are best in class in a specialist area, such as device hardware, payments processing and merchant services. With tried and tested integrations and standard contracts, a contactless EMV pilot or roll-out can be managed in weeks.

Where the single supplier model can be highly constrained, the modular alternative allows greater flexibility. If an agency prefers a particular payment reader, the option to use it remains. Interoperability, choice and competition in the marketplace drives costs down, making contactless EMV something that small transit agencies can consider.

Industry moving towards modular

Some of the biggest players in public transit have shown interest in moving towards more modular solutions based on open standards. Transport for London (TfL) has suggested that, in a procurement taking place in 2025, it will look to segment its monolithic solution.

Agencies already spearheading this approach include Helsinki Regional Transport (HSL) and TVV lippu- ja maksujärjestelmä Oy (LMJ) in Finland. They rolled out a modular contactless payment system in the capital, Helsinki, and several other cities.

To introduce contactless EMV transit payments, public transit agencies need three components: a validator (payment terminal to accept payment), a payment processor (the integration layer) and an acquiring bank (to settle the payment). In Finland, the payment processor connected Nets, a leading European provider of acquiring services, to several different validators, allowing each city's transit provider to select the hardware that matched their needs.

Because integration and certification were already complete, transit agencies in cities such as Tampere, Oulu and Hämeenlinna were able to quickly get up and running with contactless acceptance.

"We can promise our [transit agency] customers that, six weeks after project ramp-up, we can start production with Mastercard and Visa payments," said Juha Ranta, COO, LMJ.

Strong contactless payments adoption was seen from the outset, with contactless EMV payments gaining a 17 percent share of total transactions in the city of Oulu within 10 months - while paper tickets and season passes saw the greatest decline. This is partly because consumers in the Nordic region already widely use tap-to-pay in settings like retail and hospitality and there was pent up demand for the same experience on public transport.

However, the cities involved also launched dedicated customer-facing marketing campaigns, helping to motivate the significant shift to contactless. Campaigns including billboards, bus wraps and other communications ensured that residents, commuters and tourists knew the system was being introduced and were clear on how to use it.

In the United States, the California Department of Transportation (Caltrans) is also breaking new ground with a mobility marketplace set up as part of the California Integrated Travel Project (Cal-ITP). It has contracted vendors in three categories - payment processors, fare calculation software and fare validators - to supply parts of an open loop fare collection system. Any of the 300-plus transit agencies in the state—and nationwide—can pick three compatible components to buy.

It is hoped that, in making contactless payments less complex to procure and more affordable for smaller cities, the state of California will work towards a unified transit payments system. Its long-term vision is to achieve seamless, multimodal travel in the state and beyond, inspiring more people to ride transit rather than using their private car for most journeys.

Early signs are encouraging. Several contactless pilots have gone live in Monterey, Sacramento and Santa Barbara, which demonstrate the modular concept in action. Monterey Salinas-Transit (MST) led the way, launching tap-to-pay in May 2021. In a rider survey carried out a year later, the agency found that nearly half (47 percent) of respondents were using the system and found it really convenient.

Lisa Rheinheimer, assistant general manager, MST, said, "Those who use the contactless system are largely happy with it."

In Santa Barbara, a contactless system has been active on the Santa Barbara County Association of Governments' (SBCAG) Clean Air Express commuter route since last July. It has steadily gained users and now 13 percent of riders tap-to-pay.

Whitney Rush, rail and transit project manager, SBCAG, said, "It's been enormously beneficial to step into the future of fare payments. Our customers expect it. They and the drivers have been pleased with the system."

Open for all agencies

Open architecture for payment systems is the way that the industry is headed, making it possible to launch tap-to-ride quickly and less expensively, and enabling agencies to add to or swap elements of a fare collection system without having to start from scratch.

For those without access to a state-led initiative such as Cal-ITP's mobility marketplace, procurement options include issuing separate RFPs for payment devices, payment processing and acquiring services; or working with a payment service provider that has established integrations with a range of devices and acquirers. Following the latter route, it's possible that components of an open loop payments system can be selected and then simply switched on.

The Californian contactless demonstrations are a great example of this. In partnership with Cal-ITP, payment service provider Littlepay teamed up with its ticketing technology and acquiring partners to give agencies a smooth journey to contactless EMV.

The beauty of this type of arrangement, particularly for smaller agencies with limited technical resources, is that there is knowledge and experience on tap. Systems have been deployed many times already and there is a clear and proven roadmap for both pilots and full roll-outs.

Simple and inclusive fare payments

Fast becoming an expectation amongst transit users around the world, contactless EMV payments have been identified as a pillar of the rider experience. These systems allow speedy boarding and the convenience of tapping to pay for trips using the bank card or digital wallet people carry everywhere. Riders simply pay for travel, rather than buying a ticket, and enjoy automatic benefits from fare caps or discounts and concessions linked to their card.

As U.S. transit agencies continue to seek ways to improve fare equity and inclusion, this technology is at the forefront of enabling lower income riders and eligible concession groups to access public transit and get the best ticket prices without paying in advance. Modular systems, with minimal capex investment and fast turnaround from contract to deployment can give transit agencies in smaller urban and rural communities an ace up their sleeve.

Adam McGavock is the business development manager for North America at Littlepay.

Zero-emission buses will lead to a re-engineering of nation's bus depots

The transition to zero-emission buses involves much more than vehicle selection and procurement. To accommodate battery-electric or fuel-cell electric buses, agencies should prepare for a complete reengineering of traditional depot facilities.
