What is the Forecast?

- Forecast for tri-county area:
  - Population, housing and employment
- Base Year – 2015

Growth Forecast vs. General Plans

- Purpose of regional growth forecast is to show what is likely to occur
- General Plans often look at full potential build out in order to address potential environmental impacts
- Regional forecast is being developed on a different timeline than General Plans
- Due to different goals and different timelines the numbers will not match exactly with any given General Plan
